

MetalGate Czech Death Fest 2014 – preparations continue

On several fronts in fact. Dramaturgy-wise, we are pleased to announce that the **sixth installment** of the Czech metal feast **has a complete roster** now, having included the **last two bands, black metal ones** at that.

The first new addition is a foreign guest, namely the dark cosmologists **ORANSSI PAZUZU** from Finland, presenting their current and highly acclaimed album “Valonielu”. The second one is the local horde **DESIRE FOR SORROW** from České Budějovice, winner of the fifth anniversary installment of metal bands contest MetalGate Massacre.

You can thus look forward to **31 bands in total**, including **foreign guests** with the Hellenic mystics **SEPTICFLESH** and the British grindcore cult **LOCK UP** at the forefront, as well as a **quality selection from the Czech metal scene**, meaning once again genre-wise a **diverse music menu**, which is for the first time in the festival history spread between **three days!**

A concrete schedule of individual performances is now available on the official festival website or its FB profile.

In other areas, **meet & greet with both headliners** will once again be on the festival agenda, and it would not be MetalGate Czech Death Fest if it were missing the various **beer specialties** from our partner brewery **Primátor**.

The **festival presale** is in full swing. The current emission of tickets for **22 Euro** (600 CZK) is available on MetalGate e-shop, Tortharry shop, in the Ticketportal and Ticketstream presale networks and in other selected places.

See you between June 12 and 14, 2014, in the usual picturesque venue of Autocamp Brodský in Červený Kostelec!
