

METALGATE

MetalGate Season Enclosure 2014 – in cyber metal shades

Attention all fans of cyber metal or of similar fusion of electronic and metal music! On **Saturday, October 11, 2014**, the **Prague club Nová Chmelnice** shall host the next installment of the club gig **MetalGate Season Enclosure**, this time tailored exactly for you, for its dramaturgy shall rest **solely on bands that precisely combine in their music to a significant degree the electronic samples and the metal mayhem.**

The music menu shall contain five bands in total, led by the Swiss black-industrial icon **SAMAEL**, whose splendid show you could witness on MetalGate Czech Death Fest 2013!

Also performing are the two cyber metal representatives from the ranks of MetalGate Records, namely **LIVEEVIL** from Ostrava, fronted by the charismatic vocalist Petr Staněk, and the Prague-based metal-electronica dervishes **MINORITY SOUND**.

However, that is not all from the Czech scene. Additionally you can look forward to the impressive stage show of the industrial-black metal project **GORGONEA PRIMA** from Kladno, and to the violence-electronica act **ALL FRIENDS DEAD**, known to all who attended the fifth installment of MetalGate Massacre contest, where this band advanced all the way to the Grand Finale and took the overall third place.

The musical link is more than apparent from such an artist roster, and yet, each band handles the synthesis of metal and electronic music in its own unique way, which equals to a **diverse overall experience.**

We begin at 18:30, doors at 17:30. Entrance fee is 250 CZK in Ticketstream presale, 300 CZK on site.

See you there!
