## **The dark ritual of din. The hypnotic Anurnn to release their debut album**

**Sludge, drone, noise, doom, electronic and psychedelia. All that in a raw hypnotic vortex permeated with archaic vibrations. Who had the chance of witnessing this Czech outfit live, can attest that they can indeed raise a mighty wall of sound that gnaws on your very bones. Now, they are aiming for the same on their debut full-length THEURN. Out in February under MetalGate!**

Anurnn are still a newcomer to the scene, as they began only towards the end of 2023. That said, it is manned by experienced musicians who were or are active in other bands such as Illegal Illusion, Lemonheart Club, Nausea, Satelit and Bolse, as well as in electronic music projects like Nto tomorrow, Spoi or Local Heroes.

*“The name Anurnn came about as a paraphrase of An Urn, into which we interred the ashes of the previous band. We altered it on purpose so that it is unique and easy to find,”* says the band.

Urn is also featured in the debut album title – THEURN as in The Urn – one that is utterly tangible, defined and current. *“It entails for us the specific ashes as the material for the piece,”* they add.

The recording will be released on CD and MC, with the release party taking place February 14, in Ostrava in the Provoz center for culture. *“Paul Priest from The Owlripper Recordings should be joining us to unleash the album upon the world. Join us, you are all invited!”* conclude Anurnn.
