METALGATE RECORDS PROUDLY PRESENTS: DÆRRWIN – UV'DEREKH

Dear fans of the Czech alternative metal scene, it is done! At the very dusk of the arctic February comes onto the world the debut of the post-black / shoegaze act DÆRRWIN. During the two years of their existence, this very agile outfit managed indeed a lot. Line-up consolidation, frequent live shows throughout the Czech Republic and abroad, and in between, hard work on compositions that manifested on this very first full-length. The proverbial dot behind the band's infancy is thus penned. All welcome "Uv'Derekh"!

It is apt to note that the path from the birth of DÆRRWIN to their debut did not take particularly long and was well thought through. Recording the album was also undertaken with responsibility and professionalism. With maximum precision and leaving nothing to chance, the band made sure that the outcome is nothing less than a post-black jewel. The recording process itself began already in February 2017 with drum recording sessions in the Czech Woodland Studio. The second part took place from last fall till the end of the year in the SAD Studio with recordings of guitars, bass, samples and vocals. The final phase of mixing and mastering moved to the Berlin-based Aetherweight Studio, where it was overseen by Felix Tödtloff from the post-black act SUN WORSHIP. This studio is renowned for working with bands from the post/black/metal/ambient scenes (ULTHA, THE DELUGE, MOLDE or SUN WORSHIP to name a few).

DÆRRWIN however were not content just to polish the album sound to perfection. Noteworthy is also the lyrical background of the album. "Uv'Derekh" (loosely translated as "to go astray") revolves around the motif of Man as the self-appointed ruler of Earth, and of him orchestrating its destruction. This open-ended dreary tale was handled by the nihilistic poet Petr Pádívý, resulting in a conceptual character of the whole album, which determined, song-wise, its book-like structure.

To support their debut, the band is about to embark on a tour across the Czech Republic and its immediate vicinity, so do not miss this opportunity to hear these compositions live. The list of tour stops can be found on the band's Facebook page.

Also, do not miss an exclusive stream of the whole album, which is now underway on the MarastMusic e-zine.

The conceptual debut album of DÆRRWIN "Uv'derekh" is released by MetalGate Records in a digipak format and is now available on MetalGate e-shop. To all, who would come across this piece, we would recommend the following: get a cup of tea or coffee, put the mundane aside and delve into the message this singular album brings. You will not be disappointed!
