## **METALGATE RECORDS PROUDLY PRESENTS: MINORITY SOUND – THE EXPLORER**

**The Prague based project MINORITY SOUND belongs to few pioneers of Czech cyber-metal. In 2010, the band released its debut album “Analysis” under MetalGate Records, and two years later returned with its successor “The Explorer”, polished to perfection!**

The widely-known precision of the band spawned in Šopa Studios a flawlessly recorded material which was subsequently mixed in Canada by producer Rom diPrisco, a cyber specialist, who composed for instance soundtracks to various video games, such as Unreal Tournament 3, Prey or the first four installments of the Need for Speed series.
