## METALGATE RECORDS PROUDLY PRESENTS: TORTHARRY – FOLLOW

After two years of hard work, the eighth studio album of the Czech death metal icon TORTHARRY, entitled **Follow**, is unleashed upon the world and coming with guns blazing production. The music site of the matter, from recording to final mastering, was orchestrated in the renowned Hertz studio in Poland, a favorite spot for many acclaimed metal bands from worldwide metal scene, resulting in a brutal death metal mayhem with sharp-as-razor sound. Visualization then comes from the master of Czech metal art, Jaromír “Death” Bezruč, whose dark illustrations fit precisely with the album theme, for this time, the court lyricist of TORTHARRY Štefan Ležovič envisioned the piece as a reaction to the contemporary world, in which our liberties are slowly curtailed one by one, until there is no other option than become part of the mindless herd – hence **Follow**. Simply put, what awaits you is a grueling death metal blast on a truly profound topic!

The Czech metal act TORTHARRY is active on the Czech metal scene since 1991, arising on the ashes of a preceding band named Executor, beginning its death metal direction already with the first demo “Mezi nebem a peklem”. Since then, the guys have behind their belt eight studio albums (**Follow** included), contributions to several compilations, including “Tribute to Death” (USA, 1999), and a myriad of gigs, with notable highlights being two shows in Czech Republic in 1998 with the ultimate genre icon Death and the South American tour with Gorgoroth and Belphegor in 2007.

**The eighth studio album Follow by TORTHARRY is released by MetalGate Records in the second half of November 2013 in digipack format, and is available on MetalGate e-shop as well as in selected music stores around Czech Republic the list of which is on our website.**

Furthermore, all TORTHARRY fans should not miss the unique **album release party**, which will take place on **Saturday, December 21, 2013, in Zděřina Music Hall near Police nad Metují**, featuring a **special guest**, the one and only **Derrick Green**, frontman of the Brazilian death metal cult Sepultura! Not only will there be a meet and greet, but Derrick will also join TORTHARRY on stage in a **special show**. Support acts include Antigod, Minority Sound, Deathstar and Nanovor.
