

MetalGate Massacre vol.6: Grand Finale ahead

The sixth installment of the bands contest MetalGate Massacre is coming to a close. On **Thursday, February 18, 2016**, the Prague-based club **Modrá Vopice** witnessed the conclusion of the contest's basic leg on the **third basic round** that brought the battle between **Teralodon, Drunk with Pain** and **LateXjesuS**. Unfortunately, this time as well the fourth competing band, Gun Alchemy, bailed out of the battle.

Compared to the previous rounds, the third one had greater fan attendance, which was to the betterment of things and surely appreciated by all bands present that delivered great performances.

The result was decided again through **voting of the fans present**, as well as of the **expert committee** composed of **Růžena Šmejkalová** (representative of the Artillery creative division), **Bohouš Němec** (music journalist, Radio 1 and Radio Beat anchor), **Chymus** (frontman of Antigod), **Michal Samiec** (sound engineer, bass guitarist, editor of the Muzikus magazine) and **Luboš „LooMis“ Maule** (editor of the MarastMusic.com e-zine).

And the outcome? With **21 votes** in total, **LateXjesuS** took the **first place**. The **second place** was gained by **Drunk with Pain** with **20 votes** in total. And the final **third place** went to **Teralodon** with **12 votes** in total.

To the Grand Finale are thus advancing LateXjesuS as the **round winner**, as well as **Drunk with Pain** as the so-called **second best place**, that is, a band that scored the highest number of votes on the second place of all basic rounds (to compare, Vanguard on the first and Notion Deep on the second round both gained 14 votes). **Congrats!**

The basic leg is done and now the Grand Finale of the sixth installment is ahead, taking place Thursday, March 3, 2016, again in Modrá Vopice. This last battle that shall decide the overall winner of this year's MGM shall bring the clash between **AGASSIZ, MELTDOWN, LATEXJESUS** and **DRUNK WITH PAIN!**

As a reminder, **the prizes include music video production, studio recording session, band merchandise manufacture and more.**
